

# CITY OF GONZALES

## Planning Department

### LANDSCAPE SUBMITTAL REQUIREMENTS

(For landscape plans required to be submitted at the time of application for conditional use or site plan permits.)

Landscape plans shall include the following:

1. A plant list (with common and botanical names), indicating quantity of each plant to be used, container size, and spacing.
2. Location of all plant material, including street trees. Street trees are required in the right-of-way at a spacing of approximately 50 feet on center.
3. Irrigation system plans, including meter and pipe sizes and types of sprinklers or hose bibs. (See sample plan and information sheet.)
4. Location of all nonplant materials, such as mulch or rock, to be noted by generally recognized terms, including color. An approved mulch shall be spread over planting areas at a 3" to 4" depth.
5. Planting specifications, including staking.
6. Any proposed grade changes.
